

Investment Policy Statement**Manulife Fundamental Income Segregated Fund****Investment Objective**

Unless otherwise noted, the investment objective of the underlying fund is the same or substantially similar as the segregated fund objective.

This Fund aims to provide a regular flow of monthly revenue. The Fund invests primarily in equities and fixed income investments. These securities can be Canadian or foreign.

Investment Strategy

This Fund will invest in units of the Manulife Fundamental Income Fund, a mutual fund trust, or a substantially similar fund (the “Underlying Fund”).

The investment strategy of the Underlying Fund is to invest in a diversified portfolio composed primarily of equities and fixed income securities denominated in Canadian or foreign currency. These securities can come from Canadian or foreign issuers.

The fixed income portion of the Underlying Fund comprises a diversified selection of bonds, which may include asset-backed securities, mortgage-backed securities or other fixed income instruments.

The equity portion of the Underlying Fund is composed of a diversified selection of equities, which may include, but is not limited to, common shares, preferred shares, trust units (for example, royalty trust units, income trusts and real estate investment trusts (REITs)), convertible securities, ADRs, IPU and ETFs.

The Underlying Fund's asset mix will be based on a 12 to 18-month outlook for capital markets, and will emphasize quality and liquidity in its holdings. The Underlying Fund manages the impact of market volatility by diversifying its asset mix.

Please see “Sustainability Integration” in the “Information Applicable to One or More Funds” section of the Underlying Fund's Prospectus for more information about how the Underlying Fund uses ESG integration as part of its investment process.

The Underlying Fund may invest up to 30% of its assets in foreign securities in a manner consistent with its investment objective.

The Underlying Fund may hold a portion of its assets in cash or short-term money market securities for administrative purposes or while searching for investment opportunities and/or due to general market, economic or political conditions.

The Underlying Fund may also invest some or all of its assets in other investment funds, including Underlying Funds and ETFs, that may or may not be managed by the Manager (or one of its affiliates or associates), in order to gain indirect exposure to appropriate markets, sectors or asset classes.

The Underlying Fund may invest in investment funds managed by unaffiliated investment managers if there are no suitable investment opportunities in affiliated funds. Underlying Funds will be selected with consideration for the Underlying Fund's investment objective and strategies, past performance and volatility, among other factors. Please see “Investments in Underlying Funds” in the Prospectus of the Underlying Fund.

The Underlying Fund may invest in or use derivatives for hedging and non-hedging purposes in a manner consistent with the investment objective of the Underlying Fund and as permitted by applicable securities legislation or by the exemption described under “Derivatives Relief” in the Prospectus of the Underlying Fund. Derivatives may be used for hedging purposes in the event of significant cash flows into or out of the Underlying Fund and to provide protection for the Underlying Fund. Derivatives may be used for non-hedging purposes in order to invest indirectly in securities or financial markets and to gain exposure to other currencies. You will find more information about derivatives, including the types of derivatives expected to be used by the Underlying Fund, under “Derivative Risk” in the Prospectus of the Underlying Fund.

The Underlying Fund may also enter into securities lending, repurchase, and reverse repurchase transactions to generate additional income and/or as a short-term cash management tool. For more information see “Securities Lending, Repurchase and Reverse Repurchase Transaction Risk” in the Prospectus of the Underlying Fund.
