Investment Policy Statement

Manulife Global Listed Infrastructure Segregated Fund

Investment Objective

Unless otherwise noted, the investment objective of the underlying fund is the same or substantially similar as the segregated fund objective.

This Fund aims to achieve long-term capital appreciation by investing primarily in the securities of companies believed to be well-financed and well-managed in infrastructure and related industries and priced below their intrinsic values.

Investment Strategy

This Fund will invest in units of the Manulife Global Listed Infrastructure Fund, a mutual fund trust, or a substantially similar fund (the "Underlying Fund").

The investment strategy of the Underlying Fund is to achieve the fundamental investment objective of the Underlying Fund by investing in securities of quality businesses. The investments of the Underlying Fund do not have any predetermined holding period or selling price. The portfolio sub-advisor will hold a stock as long as it expects the value of the business to increase at a satisfactory rate.

Under normal conditions, the Underlying Fund intends to invest primarily in infrastructure securities which may include common and preferred stock, debt products, fixed income and private equity investments of companies in infrastructure and related industries or in companies which own significant infrastructure assets at the time of the investment.

The Underlying Fund may hold significant cash, cash equivalent or fixed income positions pending investment or when the portfolio sub-advisor considers it desirable as a result of market conditions.

The Underlying Fund may also invest some or all of its assets in other investment funds, including Underlying Funds and ETFs, that may or may not be managed by the Manager (or one of its affiliates or associates), in order to gain indirect exposure to appropriate markets, sectors or asset classes. The Underlying Fund may invest in investment funds managed by unaffiliated investment managers if there are no suitable investment opportunities in affiliated funds. Underlying Funds will be selected with consideration for the Underlying Fund's investment objective and strategies, past performance and volatility, among other factors. Please see "Investments in Underlying Funds" in the Prospectus of the Underlying Fund.

The Underlying Fund may invest in or use derivatives for hedging and non-hedging purposes in a manner consistent with the investment objective of the Underlying Fund and as permitted by applicable securities legislation or by the exemption described under "Derivatives Relief" in the Prospectus of the Underlying Fund. Derivatives may be used for hedging purposes in the event of significant cash flows into or out of the Underlying Fund and to provide protection for the Underlying Fund. Derivatives may be used for non-hedging purposes in order to invest indirectly in securities or financial markets and to gain exposure to other currencies. You will find more information about derivatives, including the types of derivatives expected to be used by the Underlying Fund, under "Derivative Risk" in the Prospectus of the Underlying Fund.

The Underlying Fund may also enter into securities lending, repurchase and reverse repurchase transactions to generate additional income and/or as a short-term cash management tool. For more information see "Securities Lending, Repurchase and Reverse Repurchase Transaction Risk" in the Prospectus of the Underlying Fund.

The portfolio sub-advisor, may, from time to time, in its sole discretion, hedge all or a portion of the value of the Underlying Fund's non-Canadian dollar currency exposure or the non-Canadian currency exposure of the issuers whose securities comprise the Underlying Fund's portfolio back, directly or indirectly, to the Canadian dollar.
