

**Investment Policy Statement****Manulife Global Small Cap Segregated Fund****Investment Objective**

Unless otherwise noted, the investment objective of the underlying fund is the same or substantially similar as the segregated fund objective.

This Fund aims to provide above average long-term returns by investing in securities of global, small-cap companies. The Fund is primarily invested in equity securities of companies located around the world. The amount invested in any one country varies depending upon the economic, investment, and market outlook and opportunities in each area. The Fund may also invest in treasury bills or short-term investments, not exceeding three years to maturity, from time to time.

**Investment Strategy**

This Fund will invest in units of the Manulife Global Small Cap Fund, a mutual fund trust, or a substantially similar fund (the “Underlying Fund”).

The investment strategy of the Underlying Fund is to systematically create a broadly diversified portfolio of wealth-creating companies bought at discounts to their intrinsic values and employ a long-term holding period to allow for investor recognition or corporate growth.

The Underlying Fund may hold a portion of its assets in cash or short-term money market securities for administrative purposes or while searching for investment opportunities and/or due to general market, economic or political conditions.

The Underlying Fund may also invest some or all of its assets in other investment funds, including Underlying Funds and ETFs, that may or may not be managed by the Manager (or one of its affiliates or associates), in order to gain indirect exposure to appropriate markets, sectors or asset classes. The Fund may invest in investment funds managed by unaffiliated investment managers if there are no suitable investment opportunities in affiliated funds. Underlying Funds will be selected with consideration for the Underlying Fund’s investment objective and strategies, past performance and volatility, among other factors. Please see “Investments in Underlying Funds” in the Prospectus of the Underlying Fund.

The Underlying Fund may invest in or use derivatives for hedging and non-hedging purposes in a manner consistent with the investment objective of the Underlying Fund and as permitted by applicable securities legislation or by the exemption described under “Derivatives Relief” in the Prospectus of the Underlying Fund. Derivatives may be used for hedging purposes in the event of significant cash flows into or out of the Fund and to provide protection for the Fund. Derivatives may be used for non-hedging purposes in order to invest indirectly in securities or financial markets and to gain exposure to other currencies. You will find more information about derivatives, including the types of derivatives expected to be used by the Fund, under “Derivative Risk” in the Prospectus of the Underlying Fund.

The Underlying Fund may also enter into securities lending, repurchase and reverse repurchase transactions to generate additional income and/or as a short-term cash management tool. For more information see “Securities Lending, Repurchase and Reverse Repurchase Transaction Risk” in the Prospectus of the Underlying Fund.
