

Investment Policy Statement**Manulife U.S. Equity Segregated Fund****Investment Objective**

Unless otherwise noted, the investment objective of the underlying fund is the same or substantially similar as the segregated fund objective.

This Fund aims to obtain long-term capital growth. The Fund seeks to provide above-average long-term rates of return by investing in common shares of U.S. companies. The Fund may also invest in treasury bills or short-term investments, not exceeding three years to maturity, from time to time.

Investment Strategy

This Fund will invest in units of the Manulife U.S. Equity Fund, a mutual fund trust, or a substantially similar fund (the “Underlying Fund”).

The investment strategy of the Underlying Fund is to strive for above-average long-term returns with lower-than-average levels of risk. The portfolio sub-advisor applies a highly disciplined, research driven process and long-term view to achieve this objective. Broad diversification is achieved through investments in a number of separate U.S. companies and different industry sectors in the United States. The portfolio sub-advisor intends to add value through prudent security selection, diversification, and emphasis upon relative security valuations.

The Underlying Fund may hold a portion of its assets in cash or short-term money market securities for administrative purposes or while searching for investment opportunities and/or due to general market, economic or political conditions.

The Underlying Fund may also invest some or all of its assets in other investment funds, including Underlying Funds and ETFs, that may or may not be managed by the Manager (or one of its affiliates or associates), in order to gain indirect exposure to appropriate markets, sectors or asset classes. The Underlying Fund may invest in investment funds managed by unaffiliated investment managers if there are no suitable investment opportunities in

affiliated funds. Underlying Funds will be selected with consideration for the Underlying Fund's investment objective and strategies, past performance and volatility, among other factors. Please see “Investments in Underlying Funds” in the Prospectus of the Underlying Fund.

The Underlying Fund may invest in or use derivatives for hedging and non-hedging purposes in a manner consistent with the investment objective of the Underlying Fund and as permitted by applicable securities legislation or by the exemption described under “Derivatives Relief” in the Prospectus of the Underlying Fund. Derivatives may be used for hedging purposes in the event of significant cash flows into or out of the Underlying Fund and to provide protection for the Underlying Fund. Derivatives may be used for non-hedging purposes in order to invest indirectly in securities or financial markets and to gain exposure to other currencies. You will find more information about derivatives, including the types of derivatives expected to be used by the Underlying Fund, under “Derivative Risk” in the Prospectus of the Underlying Fund.

The Underlying Fund may also enter into securities lending, repurchase and reverse repurchase transactions to generate additional income and/or as a short-term cash management tool. For more information see “Securities Lending, Repurchase and Reverse Repurchase Transaction Risk” in the Prospectus of the Underlying Fund.
