We think it's a *better* way to invest

A *message* to shareholders

Dear shareholder,

Global equities declined during the 12 months ended 31 March 2023. A modest downturn in inflation prompted investors to look ahead to the point at which the U.S. Federal Reserve (Fed) and other central banks could stop raising interest rates, boosting the performance of risk assets. The markets were also cheered by China's decision to move off of its zero-COVID policy.

As the period ended, however, investor sentiment deteriorated amid signs of reaccelerating inflation and concerns that the Fed and other central banks would continue to raise interest rates. In addition, several bank failures in the United States and Europe in March 2023 raised concerns that the turmoil would spread to other local and regional banks led to a flight to quality in the financial markets, which boosted demand for bonds.

Bond yields generally rose during the period, leading to declining bond prices. Shortterm bond yields increased the most, reflecting the central bank rate hikes. From a global sector perspective, high-yield corporate bonds largely posted gains for the period, while government securities lagged.

In these uncertain times, your financial professional can assist with positioning your portfolio so that it's sufficiently diversified to help meet your long-term objectives and to withstand the inevitable bouts of market volatility along the way.

On behalf of everyone at Manulife Investment Management, I'd like to take this opportunity to welcome new shareholders and thank existing shareholders for the continued trust you've placed in us.

Sincerely,

Andrew G. Arnott

Global Head of Retail, Manulife Investment Management

This commentary reflects Mr. Arnott's views as of this report's period end and are subject to change at any time. Diversification does not guarantee investment returns and does not eliminate risk of loss. All investments entail risks, including the possible loss of principal. Directors' Report

For the financial year ended 31 March 2023

Review of the development of the business

The Directors present to the shareholders the annual report together with the audited financial statements of Manulife Investment Management I PLC (the "Company") for the financial year ended 31 March 2023.

The Company is an open-ended umbrella investment company with variable capital and segregated liability between each fund (each a "Fund", collectively the "Funds") and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (the "Companies Act").

The Company is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended), and under the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1)) (Undertakings For Collective Investment In Transferable Securities) Regulations 2019 (together the "Central Bank UCITS Regulations"). The Company was incorporated on 6 February 2015 under registration number 557040.

The Company is structured as an umbrella fund consisting of different funds, each comprising one or more classes. As of 31 March 2023, the Company comprised three active Funds as follows:

	Functional		Number of Share Classes
Fund Name	Currency	Launch Date	as of 31 March 2023
Manulife U.S. Large Cap Equity Fund			
("U.S. Large Cap Equity Fund")	USD	29 June 2015	9
Manulife Strategic Income Opportunities Fund			
("Strategic Income Opportunities Fund")	USD	29 June 2015	13
Manulife Global Quality Growth (Ex-U.S.) Fund			
("Global Quality Growth (Ex-U.S.) Fund")	USD	8 December 2016	7

The following Fund has terminated during the year ended 31 March 2023:

	Functional			Number of Share Classes
Fund Name	Currency	Launch Date	Termination Date	as of 31 March 2023
Manulife Macro Currency Fund				
("Macro Currency Fund")	EUR	11 January 2019	21 October 2022	_

The active Funds and share classes launched on the following dates:

	U.S. Large Cap Equity Fund	Strategic Income Opportunities Fund	Global Quality Growth (Ex-U.S.) Fund
Class	Launch Date	Launch Date	Launch Date
Class A USD Accumulating	29 June 2015	29 June 2015	08 December 2016
Class E3 USD Accumulating	_	08 May 2018	_
Class I USD Accumulating	29 June 2015	29 June 2015	08 December 2016
Class W USD Accumulating	29 June 2015	29 June 2015	08 December 2016
Class A USD Distributing	_	29 June 2015	
Class W USD Distributing	_	29 June 2015	_
Class A CHF (Hedged) Accumulating	08 May 2018	08 May 2018	_
Class I CHF (Hedged) Accumulating	08 May 2018	08 May 2018	08 May 2018
Class X GBP Accumulating	27 February 2019	27 Mar 2019	_
Class I GBP (Hedged) Accumulating	08 May 2018	08 May 2018	08 May 2018
Class A EUR (Hedged) Accumulating	08 May 2018	08 May 2018	_
Class E3 EUR (Hedged) Accumulating	_	08 May 2018	_
Class I EUR (Hedged) Accumulating	08 May 2018	08 May 2018	07 March 2018
Class W EUR (Hedged) Accumulating	_		07 March 2018

The base currency of all of the aforementioned Funds is U.S. Dollar ("USD").

Investment objectives and policies

The investment objectives and policies of the Funds are detailed below. Further details on the investment policies may be found in the Supplement with respect to the relevant Fund.

U.S. Large Cap Equity Fund

The investment objective of the Fund is to seek long-term capital appreciation.

Under normal market conditions, the Fund pursues its investment objective by investing at least 80% of its Net Asset Value ("NAV") in equity securities of large-capitalisation companies. The Fund considers large-capitalisation companies to be those companies in the capitalisation range of the S&P 500 Index. Equity securities include common and preferred stocks, American depositary receipts ("ADRs"), European depositary receipts ("EDRs"), global depositary receipts ("GDRs"), American depositary shares ("ADSs") or similar securities. The Fund may also invest in warrants and rights to purchase common or preferred stocks and exchange traded funds ("ETFs") and real estate investment trusts ("REITs") subject to the limits as set out in the Prospectus. The Fund may also invest in convertible securities which may be converted into such equity securities.

Strategic Income Opportunities Fund

The investment objective of the Fund is to seek to maximise a total return consisting of current income and capital appreciation.

Under normal market conditions, the Fund pursues its investment objective by investing at least 80% of its NAV in the following types of securities (which may be denominated in U.S. Dollars or any other currency): non-U.S. government debt securities from developed and emerging markets, corporate debt securities from developed and emerging markets, U.S. government and agency or permitted supranational agency securities, issued or guaranteed (investment grade or High Yield Debt Securities), U.S. high-yield bonds, investment grade corporate bonds and currency instruments, preferred stocks and real estate investment trusts. The Fund may also invest in asset-backed securities and mortgage-backed securities, including mortgage pass-through securities, collateralised mortgage obligation securities, commercial and residential mortgage-backed securities and to be announced securities ("TBAs").

Global Quality Growth (Ex-U.S.) Fund

The investment objective of the Fund is to seek high total return through capital appreciation.

The Sub-Investment Manager seeks to achieve the Fund's investment objective by investing in equity securities that the Sub-Investment Manager believes will provide higher returns than the MSCI All Country World ex-US Growth Index. Under normal market circumstances, the Fund will invest at least 80% of its NAV in equity securities. The Fund may invest in all types of equity and equity related securities, including exchange-traded and OTC and preferred stocks, warrants, options, rights, convertible securities, depositary receipts and shares, participatory notes (which instruments are securitised, capable of free sale and transfer and which provide the Fund with unleveraged exposure to equities in markets where there may be local regulatory or operational restrictions that prevent the Fund investing directly in equities) exchange traded funds and real estate investment trusts. The Fund may also invest up to 10% of its NAV in equity participations to the extent that they are an eligible loan. An equity participation is a loan that gives the lender a portion of equity ownership in a property, in addition to principal and interest payments.

Macro Currency Fund

The investment objective of the Fund was to provide Shareholders with positive absolute return over a typical market cycle.

The Fund sought to provide absolute return by identifying and exploiting investment opportunities across currency markets while controlling overall portfolio risk using a predictive risk model (i.e., the use of past data to predict an outcome) to forecast forward looking risk expectations to construct portfolio positions to achieve the desired level of risk. The Fund invested in currencies which meet the Sub-Investment Manager's investment governance criteria which means currencies that are tightly priced (e.g., low bid and ask spread and low transaction costs), liquid (e.g., low market impact when trading and transparent valuation), contain similar currency characteristics (e.g. common sensitivities that drive supply and demand) and constitute an independent currency (e.g. not pegged or otherwise managed to another currency). The Fund could have also invested up to but not exceeding 10% of its NAV in Underlying Collective Investment Schemes which have a currency investment focus. The Fund could have utilised repurchase agreements for efficient portfolio management purposes.

The Fund terminated on 21 October 2022.

Sub Investment Manager

The Manager has delegated some of its responsibilities to certain Sub-Investment Managers (each a "Sub-Investment Manager" and together the "Sub-Investment Managers"), as detailed in the relevant Sub-Investment Management agreement. The Sub-Investment Managers of the Funds are listed in the table below:

Fund Name	Sub-Investment Manager	Date of Sub-Investment Management Agreement
		Management Agreement
U.S. Large Cap Equity Fund	Manulife Investment Management (US) LLC	18 June 2015
Strategic Income Opportunities Fund	Manulife Investment Management (US) LLC	18 June 2015
Global Quality Growth (Ex-U.S) Fund	Wellington Management Company LLP	25 November 2016
Macro Currency Fund*	First Quadrant, L.P.	04 April 2018

* The Fund terminated on 21 October 2022.

Financial Derivative Instruments ("FDIs")

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the Central Bank, use techniques and instruments for hedging purposes or for the purposes of efficient portfolio management. The Company may also use repurchase/reverse repurchase and securities lending agreements for the purposes of efficient portfolio management. A Fund may also use FDIs to seek to enhance returns, spreads or gains, or to efficiently invest excess cash or quickly gain market exposure. A Fund may engage in such transactions on an exchange or in the OTC market.

Each Fund has specific policies in relation to the use of FDIs for investment and/or hedging purposes as detailed in the relevant Fund's Supplement.

Results, activities and future developments

The results of operations are set out in the Statement of Comprehensive Income. A detailed review of Funds' performance is contained in the Manager's Report. The Directors do not anticipate any change in structure or investment objectives of the Company.

Principal risks and uncertainties

A detailed review of principal risks and uncertainties is contained in the Prospectus.

London Interbank Offered Rate (LIBOR) Risk

The ICE Benchmark Administration Limited, the administrator of LIBOR, ceased publishing most LIBOR maturities, including some US LIBOR maturities, on 31 December 2021, and ceased publishing the remaining and most liquid US LIBOR maturities on 30 June 2023 on a representative basis. The 1-, 3- and 6-month USD LIBOR maturities will continue to be published based on a synthetic methodology through 30 September 2024 and are permitted to be used in all legacy contracts except cleared derivatives. Various financial industry groups are planning for the transition from LIBOR, but there are obstacles to converting certain longer-term securities and transactions to a new benchmark. Transition planning is ongoing, and neither the effect of the transition process nor its ultimate success can yet be known. For further information, please visit the FCA website on www.fca.org.uk/markets/libor.

Economic and Market Events Risk

As a result of political tensions and armed conflicts, including the Russian invasion of Ukraine commencing in February of 2022, the United States and the European Union, along with the regulatory bodies of a number of countries, have imposed economic sanctions on certain Russian corporate entities and individuals, and certain sectors of Russia's economy, which has resulted, and may continue to result, in devaluation of Russian currency, a downgrade in the country's credit rating, a decline in the value and liquidity of Russian securities, property or interests and supply chain disruption.

Interest Rate Risk

Surging inflation during the year prompted many of the world's central banks to lift interest rates. Generally, the value of fixed income securities will change inversely with changes in interest rates. As interest rates rise, market value tends to decrease. This risk will be greater for long-term securities than for short-term securities. Unexpected changes in interest rates may adversely affect the value of a Fund's investments, particularly with respect to derivative instruments. FDIs used by a Fund may be particularly sensitive to changes in prevailing interest rates.

SFDR and Taxonomy Regulation Disclosures

The European Union's ("EU") Sustainable Finance Disclosures Regulation (Regulation EU/2019/2088) ("SFDR") requires the Company to provide transparency on how sustainability risks are integrated into the investment process with respect to each of the Funds. The EU's Regulation on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation EU/2020/852) (the "Taxonomy Regulation") requires the Company to provide additional disclosure with respect to each of the Funds in order to enhance transparency and to provide for objective comparison of financial products regarding the proportion of such financial products' investments that contribute to environmentally sustainable economic activities, as prescribed in the Taxonomy Regulation, is narrower than the scope of sustainable investments under SFDR.

Each Fund does not promote environmental and/or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR, nor does it have sustainable investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR, and as such, each Fund is considered to fall within the scope of Article 6 of SFDR. Accordingly, each Fund shall not be expected to pursue an investment approach that promotes environmental or social characteristics under Article 8 of SFDR or to have sustainable investment as its objective under Article 9 of SFDR.

SFDR does not require the Company to provide any ongoing disclosures in the Annual Report for the Funds. For the purpose of the Taxonomy Regulation, it should be noted that the investments underlying each Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Directors

The Directors appointed and who held office at any time during the financial year are detailed below:

Thomas G. Murray (Chairman) (Irish Resident) Eimear Cowhey (Irish Resident) Adrian Waters (Irish Resident) Andrew G. Arnott (U.S. Resident) Christopher Conkey (U.S. Resident) Bernard Letendre (Canadian Resident) (resigned 8 August 2022)

Employees

There were no employees of the Company for the financial year under review or the prior financial year. The Remuneration Policy on page 132 details the identified staff of the Company, as defined by the UCITS Regulations.

Going concern

The Directors' report summarises the Company activities, its financial performance and financial position together with any factors likely to affect its future development. In addition, it discusses the principal risks and uncertainties it faces. Note 10 to these financial statements summarises the Company's risk and capital management objectives and policies together with its financial risks. Management is satisfied that the going concern basis of accounting is appropriate for the Company for the foreseeable future.

Directors and Company Secretary's interest in shares and contracts

The Directors of the Company, the Company Secretary and their families had no beneficial interest in the shares of the Company at 31 March 2023 and 31 March 2022.

Andrew G. Arnott, Director of the the Company, is Global Head of Retail for Manulife Investment Management.

Christopher Conkey, Director of the Company, is a senior executive of Manulife Investment Management (US) LLC, which is a sub-investment manager of the Company.

Bernard Letendre, Director of the Company, is a senior executive of Manulife Investment Management and based in Canada. Bernard Letendre resigned as Director of the Company on 8 August 2022.

Fees charged by the Manager during the year are disclosed in the Statement of Comprehensive Income.

Directors Compliance Statement

In accordance with Section 225 of the Companies Act 2014, the Directors:

(a) acknowledge that they are responsible for securing the Company's compliance with its relevant obligations; and

(b) confirm that:

- i) A compliance policy statement has been prepared setting out the Company's policies (that, in the Directors' opinion, are appropriate to the Company) for ensuring compliance by the Company with its relevant obligations;
- ii) An adequate structure is in place, that in the Directors' opinion, is designed to secure material compliance with the Company's relevant obligations; and
- iii) An annual review procedure has been put in place to review the Company's relevant obligations and ensure a structure is in place to comply with these obligations.

Directors' fees

The Prospectus provides that the Directors shall be entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. However, Directors affiliated with Manulife Investment Management are not entitled to a fee. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties. Directors' fees charged and payable for the financial years ended 31 March 2023 and 31 March 2022 are detailed in Note 8.

Dividends

The Funds may issue both distributing and accumulating shares. The Board of Directors intends to distribute all of the distributable income attributable to distributing shares. No distribution of dividends shall be made for accumulating shares, and the income attributable to those shares will be reflected in the increased value of the shares. Only Strategic Income Opportunities Fund paid dividends during the financial years ended 31 March 2023 and 31 March 2022. See Note 14 for more details.

Transactions involving Directors

There are no contracts or arrangements of any significance in relation to the business of the Company other than those stated in Note 12 to the financial statements, in which the Directors had any interest as defined in the Companies Act 2014 at any time during the financial year ended 31 March 2023 or 31 March 2022.

Adequate accounting records

The Directors ensure compliance with the Company's obligation to maintain adequate accounting records in accordance with section 281 to 285 of the Companies Act 2014 by appointing competent persons to be responsible for them. The accounting records are kept by State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin D02 HD32, Ireland.

Connected parties

Regulation 43 of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") requires that any transaction between a UCITS and a connected person is conducted at arm's length and be in the best interests of the shareholders of the UCITS.

For the purpose of regulation 42 of the Central Bank UCITS Regulations a "connected person" means the management company or depositary of the UCITS; and the delegates, or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of such a management company, depositary, delegate or sub-delegate.

The Directors of the Manager are satisfied that (i) there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with a connected party (as defined in Regulation 42 of the Central Bank UCITS Regulations) and (ii) all transactions with connected parties entered into during the period to which the report relates compiled with the obligations that are prescribed by regulation 43(1) of the Central Bank UCITS Regulations.

Political Donations

No political donations were made by the Company during the year ended 31 March 2023 or 31 March 2022.

Review of Business and Future Development

The business of the Funds are reviewed in detail in the Manager's Reports.

Significant events during the financial year

On 8 August 2022, Bernard Letendre resigned as a Director of the Company.

On 17 September 2022, the Board approved the liquidation of the Macro Currency Fund. The Fund terminated on 21 October 2022.

For more information on significant events during the financial year please see Note 18 in Notes to the Financial Statements.

Significant events after the financial year end

See Note 19 in Notes to the Financial Statements.

Corporate Governance Statement

The Company has been in compliance with the Corporate Governance Code during the financial year ended 31 March 2023.

The Company has adopted in full the voluntary Code of Corporate Governance for Collective Investment Schemes and Management Companies issued by the Irish Funds, the text of which is available from the Irish Funds website, <u>www.irishfunds.ie</u>. The Company's financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), the Companies Act 2014 and the Central Bank UCITS Regulations.

The Company is subject to corporate governance practices imposed by:

The Constitution (formerly Memorandum and Articles) of the Company; The Companies Act 2014 (the "Companies Act"); and The Central Bank UCITS Regulations.

Copies of all of the above documents are available for inspection at the Company's registered office at 5 Earlsfort Terrace, Dublin 2 D02 CK83, Ireland.

The Directors have reviewed the The Irish Funds Industry Association ("IF") corporate governance code ("IF Code") and approved this code on 18 June 2015. The IF Code can be viewed on the IF website (www.irishfunds.ie). Consistent with the regulatory framework applicable to investment fund companies such as the Company (and in contrast to normal operating companies with a full time executive management and employees), the Company, consequently, operates under the delegated model whereby it has delegated management (including investment management), administration and distribution functions to third parties without abrogating the Directors' overall responsibility. The Directors have in place mechanisms for monitoring the exercise of such delegated functions, which are always subject to the supervision and direction of the Directors. These delegations of functions and the appointment of regulated third party entities are detailed in the Company's Prospectus. In summary, they are:

The Company has appointed the Manager as its investment manager pursuant to the Management Agreement. Under the terms of the Management Agreement, the Manager has responsibility for the investment management of the Funds. The Manager is under the supervision of the Central Bank.

The Manager has direct responsibility for the decisions relating to the day-to-day running of the Funds and it is accountable to the Directors for the investment performance of the Funds. The Manager has internal controls and risk management processes in place to ensure that all applicable risks pertaining to management of the Funds are identified, monitored and managed at all times and appropriate reporting is made to the Directors on a regular basis.

The Manager has delegated its responsibility as administrator, registrar and transfer agent to State Street Fund Services (Ireland) Limited (the "Administrator") which entity has responsibility for the day-to-day administration of the Company and the Funds including the calculation of the NAV. The Administrator is regulated by and under the supervision of the Central Bank.

Corporate Governance Statement (continued)

The Company also has appointed State Street Custodial Services (Ireland) Limited as depositary (the "Depositary") of its assets which entity has responsibility for the safekeeping of such assets in accordance with the Central Bank UCITS Regulations and for exercising independent oversight over how the Company is managed. The Depositary is regulated by and under the supervision of the Central Bank.

The Directors receive reports on a regular (and at least quarterly) basis from each of its delegate service providers and the Depositary which enable them to assess the performance of the delegate service providers and the Depositary (as the case may be).

Risk management objective and policies

The main risks arising from the Company's financial instruments are disclosed in Note 10 of these financial statements along with the risk management objectives and policies. Further information can also be found in the Prospectus and Supplements of the Company.

Independent auditors

The independent auditors, Ernst & Young, have indicated their willingness to continue in office, and will be reappointed in accordance with the Companies Act 2014.

Statement on Relevant Audit Information

As at the date this Directors' Report was approved and signed (set out below), each Director is satisfied that:

a) that there is no relevant audit information of which the Company's statutory auditors are unaware and;

b) s/he has taken all the steps that he or she ought to have taken as a director in order to make herself or himself aware of any relevant audit information and to establish that the Company's statutory auditors were aware of that information where "relevant audit information" means information needed by the Company's statutory auditors in connection with preparing their report.

Audit Committee

The Directors have decided not to establish an audit committee pursuant to section 167(2)(b) of the Companies Act 2014. This has been decided on the basis of the following:

- a) the nature, scale and complexity of the Company's business range of services and activities undertaken in the course of that business;
- b) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company and carry out certain functions on its behalf; and
- c) the procedures in place for the review, approval, and circulation of the audited financial accounts and statements which are appropriate for an investment company pursuant to the UCITS regulations.

On behalf of the Board of Directors

Eimear Cowhey Director 20 July 2023 Thomas G. Murray Director 20 July 2023

Statement of Directors' Responsibilities

For the financial year ended 31 March 2023

The Directors are responsible for preparing the annual report and the Company's financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), with the Companies Act 2014 and the Central Bank UCITS Regulations.

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the assets and liabilities and financial position of the Company at the end of the financial year and of the profit or loss of the Company for that period and otherwise comply with the Companies Act 2014 (Section 289 of the Companies Act 2014). In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS and ensure that they contain the additional information required by the Companies Act 2014; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

In this regard the Administrator has been appointed for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address:

State Street Fund Services (Ireland) Limited 78 Sir John Rogerson's Quay Dublin D02 HD32 Ireland

The Directors are responsible for safeguarding the assets of the Company. In this regard they have entrusted the assets of the Company to the Depository, who has been appointed as Depositary to the Company pursuant to the terms of a Depositary Agreement. The Directors have a general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

On behalf of the Board of Directors

Eimear Cowhey Director 20 July 2023 Thomas G. Murray Director 20 July 2023

Manager's Report

For the financial year ended 31 March 2023

U.S. Large Cap Equity Fund

Discussion of Fund performance

An interview with Portfolio Manager Emory W. Sanders, Jr., CFA, Manulife Investment Management

What factors drove the U.S. stock market for the 12 months ended 31 March 2023?

U.S. stocks declined this period, weighed down by elevated inflation, recession fears, geopolitical tensions, and gradual adjustments to earnings as the U.S. Federal Reserve (Fed) decelerated U.S. economic growth. To help tame inflation, the Fed aggressively raised its short-term interest rate target throughout 2022. As inflationary pressures eased in early 2023, however, the Fed started dialing back the size of its interest rate hikes. Throughout the period, employment remained healthy, and the economy began to normalize as pandemic-related challenges abated.

Within the Fund's benchmark, the S&P 500 Index, the growth-oriented communication services and consumer discretionary sectors and interest-rate sensitive real estate sector posted notable declines during the period. The financials sector also came under pressure. Conversely, the energy sector notched a sizable gain, as geopolitical unrest and a volatile supply/demand outlook aided oil and gas prices.

How did the Fund fare?

The Class A USD Accumulating Shares posted a loss of 10.13% (excluding sales charges)¹, underperforming the 7.73% loss of its benchmark. Security selection and a sizable overweight in the communication services sector notably hampered the Fund's relative result.

Shares of Facebook parent company Meta Platforms, Inc. sank after the company announced plans to invest heavily in its metaverse business despite concerns about the outlook for its online advertising business. An overweight in e-commerce giant Amazon.com, Inc. detracted as the company lapped difficult year-over-year financial comparisons while investing in its logistics infrastructure. An out-of-benchmark position in online auto retailer CarGurus, Inc. fell sharply as a lack of used car supply diminished the need for advertising. We sold the Fund's holdings in Meta Platforms, Inc. prior to period end.

Which investment choices helped versus the benchmark?

Top individual contributors included U.S. homebuilder Lennar Corp., a sizable overweight that continued to deliver better-than-anticipated results as higher interest rates made for a difficult financing environment. Another standout was an out-of-benchmark stake in Belgium-headquartered global brewer Anheuser-Busch InBev SA/NV. Its stock rallied as a post-pandemic return to more normal economic activities. An out-of-benchmark position in liquefied natural gas company Chenière Energy, Inc. rose as strong demand and constrained supply fueled high gas prices during the period.

How was the Fund positioned at period end?

Our bottom-up focus is on financially sound large-cap U.S. companies that offer competitive advantages, the ability to generate substantial cash flow over sustained periods and attractive or reasonable share prices. We continue to find long-term opportunity across sectors, with notable overweights in the consumer discretionary, communication services, financials, and information technology sectors. During the period, we boosted the Fund's exposure to the information technology sector and trimmed its stake in communication services sector.

¹ Share class return calculations is based on the published NAV per share.

Notes about risk

The Fund is subject to various risks as described in the Fund's Prospectus. Political tensions and armed conflicts, including the Russian invasion of Ukraine, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. The COVID-19 disease has resulted in significant disruptions to global business activity. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange-trading suspensions, and closures, which may lead to less liquidity in certain instruments, industries, sectors, or the markets, generally, and may ultimately affect Fund performance. For more information, please refer to the "Principal risks" section of the Prospectus.

The views expressed in this report are exclusively those of Emory W. Sanders, Jr., CFA, at Manulife Investment Management and are subject to change. They are not meant as investment advice. Please note that the holdings discussed in this report may not have been held by the Fund for the entire period. Portfolio composition is subject to review in accordance with the Fund's investment strategy and may vary in the future. Current and future portfolio holdings are subject to risk.

Strategic Income Opportunities Fund

Discussion of Fund performance

An interview with Portfolio Manager Thomas C. Goggins, Manulife Investment Management

Can you describe the U.S. bond market environment for the 12 months ended 31 March 2023?

The U.S. bond market declined during a volatile 12-month period. The key factors included surging inflation and the efforts of the U.S. Federal Reserve (Fed) to curb the inflationary pressures. The 12-month U.S. inflation rate peaked at a 40-year high in mid-2022 before falling back, but it remained elevated throughout the period. The Fed responded with multiple short-term interest rate increases, which lifted the federal funds rate to 5%, its highest level in more than 15 years. Near the end of the period, slowing economic data and turmoil in the banking sector led to expectations that the Fed would taper its series of rate hikes.

For the period, U.S. bond yields increased significantly, which put downward pressure on bond prices. Reflecting the Fed rate hikes, short-term bond yields rose the most, leading to an inverted yield curve (where short-term yields are higher than longer-term yields). On a sector basis, investment-grade and high yield corporate bonds posted the largest declines, while securitized assets held up the best given their relatively short maturities.

How did the Fund perform?

The Class A USD Accumulating Shares posted a loss of 3.93% (excluding sales charges)¹, outperforming the 4.78% loss of its benchmark, the Bloomberg U.S. Aggregate Bond Index. The key factor behind the outperformance was a shorter duration (a measure of interest-rate sensitivity) than the index, which proved valuable as it limited price declines in a rising interest rate environment. Sector allocation also aided performance, especially among high-yield corporate bonds and agency mortgage-backed securities.

On the downside, individual security selection weighed on performance versus the index. The Fund's exposure to foreign currencies was also a drag on performance as the U.S. dollar strengthened against most currencies during the period.

What changes did you make to the Fund during the period?

We redeployed risk over the course of the year by reducing credit exposure and reallocating those assets elsewhere. Accordingly, we decreased the Fund's holdings of high-yield corporate bonds and shifted the proceeds into government bonds (both U.S. and non-U.S.), securitized assets, and taxable municipal bonds. We also extended the Fund's duration to the longer end of its typical range.

How was the Fund positioned at the end of the reporting period?

The Fund's positioning reflects our focus on liquidity and diversification while continuing focus on income generation for shareholders.

¹ Share class return calculations is based on the published NAV per share.

Notes about risk

The Fund is subject to various risks as described in the Fund's Prospectus. Political tensions and armed conflicts, including the Russian invasion of Ukraine, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. The COVID-19 disease has resulted in significant disruptions to global business activity. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange-trading suspensions, and closures, which may lead to less liquidity in certain instruments, industries, sectors, or the markets, generally, and may ultimately affect Fund performance. For more information, please refer to the "Principal risks" section of the Prospectus.

Portfolio composition is subject to review in accordance with the Fund's investment strategy and may vary in the future. Current and future portfolio holdings are subject to risk.

Global Quality Growth (Ex-U.S.) Fund

Discussion of Fund performance

An interview with Portfolio Manager John A. Boselli, CFA, Wellington Management Company, LLP

How did the global equity markets perform during the 12 months ended 31 March 2023?

During the period, global stock outside the United States posted negative returns. Record inflation, rising interest rates, and geopolitical tensions drove negative returns in the early part of the period. The markets rebounded in the fourth quarter of 2022, driven by positive investor sentiment from slowing inflation data and increased consumer confidence. International stocks continued to gain in the first quarter of 2023; however, volatility remained high, driven by concerns over the health of the banking sector following several bank failures in the United States and Europe.

How did the Fund perform?

In a challenging environment for international equity investors, the Fund's Class A USD Accumulating Shares posted a loss of 10.35% (excluding sales charges)¹, underperforming 6.35% loss of its benchmark, the MSCI AC World ex USA Growth Index.

Security selection in the financials, consumer discretionary, and healthcare sectors detracted, while it was partially offset by security selection in industrials and communication services sectors, which contributed. From a sector allocation perspective, an overweight to communication services, energy, and real estate sectors detracted, while an underweight allocation to information technology and materials sectors contributed.

Which positions had the biggest positive and negative impact on the Fund's relative results?

The top contributor for the period was an out-of-benchmark position in Indian conglomerate ITC, Ltd. Shares of the company rose after it released strong results thanks to its focus on digital adoption, which enabled it to deliver strong performance amid inflationary pressures. We sold the Fund's holdings in ITC prior to period end. Other positions that significantly contributed to relative performance include an out-of-benchmark position in Publicis Groupe SA, a French multinational advertising and public relations company, and an overweight position in Safran SA, a French aerospace and defense company.

The top detractor for the period was not owning Novo Nordisk A/S, a Danish pharmaceutical company. Novo Nordisk shares rose during the period as the company delivered strong 2022 sales growth driven by the diabetes and obesity segments. Other positions that significantly detracted from relative performance were not owning LVMH Moet Hennessy Louis Vuitton SE, a French luxury goods company, and an overweight to Baidu, Inc., a Chinese multinational technology company. We sold the Fund's holdings in Baidu prior to period end.

How was the Fund positioned at the end of the period?

From a sector perspective, we increased the Fund's exposure to information technology and industrials sectors and decreased exposure to healthcare, financials, and consumer staples sector. From a regional perspective, the Fund maintains an overweight exposure to Europe and China and underweight exposures to emerging markets (excluding China), Japan, and Asia-Pacific ex Japan.

¹ Share class return calculations is based on the published NAV per share.

Notes about risk

The Fund is subject to various risks as described in the Fund's Prospectus. Political tensions and armed conflicts, including the Russian invasion of Ukraine, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. The COVID-19 disease has resulted in significant disruptions to global business activity. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange-trading suspensions, and closures, which may lead to less liquidity in certain instruments, industries, sectors, or the markets, generally, and may ultimately affect Fund performance. Macro Currency Fund

Discussion of Fund performance

An interview with Portfolio Manager Dori S. Levanoni, First Quadrant LP

Note: Macro Currency Fund was terminated on 21 October 2022.

How would you describe the investment backdrop during the abbreviated period ended 21 October 2022?

Currency markets were volatile during the period. Macro data continued to point toward sluggish or negative economic growth, and inflationary pressures remained strong. While there was some hope that inflation may be decelerating in select economies, it stayed well above central bank targets. As a result, interest rates rose considerably across most developed countries. The Bank of Japan, which announced the continuation of its quantitative easing policy, was an outlier. However, it intervened in currency markets for the first time this century, buying the Japanese yen to prop up the falling currency in September.

The U.S. dollar, which benefited from the U.S. Federal Reserve's (Fed's) aggressive policy stance, the United States' stronger relative economic growth, and the currency's role as a traditional safe haven, was the top performer against the world basket. The Singapore dollar also performed well, as did the Swiss franc and Canadian dollar. On the other hand, the Nordic and Oceanic currencies lagged.

How did the Fund perform?

The Class A USD (Hedged) Accumulating Shares had a gain of 2.03% (excluding sales charges)¹, outperformed the return of 0.74% its benchmark, the ICE BofA 0-3 Month T Bill (USD).

What elements of the Fund's positioning helped and hurt results?

The Fund was long in the U.S. dollar throughout most of the period, which made a strong contribution to performance. Short positions in the Japanese yen and New Zealand dollar contributed.

The Fund's short position in the Swiss franc was the largest detractor. The Fund was also hurt by a short position in the Singapore dollar, as well as being long in the Norwegian krone early in the reporting period.

¹ Share class return calculations is based on the published NAV per share.

Notes about risk

The Fund is subject to various risks as described in the Fund's Prospectus. Political tensions and armed conflicts, including the Russian invasion of Ukraine, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. The COVID-19 disease has resulted in significant disruptions to global business activity. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange-trading suspensions, and closures, which may lead to less liquidity in certain instruments, industries, sectors, or the markets, generally, and may ultimately affect Fund performance. Depositary's Report

For the financial year ended 31 March 2023

We have enquired into the conduct of Company for the financial year ended 31 March 2023, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the "UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"); and

(ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited 78 Sir John Rogerson's Quay Dublin DO2 HD32 Ireland

Date: 20 July 2023

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MANULIFE INVESTMENT MANAGEMENT I PLC

Opinion

We have audited the financial statements of Manulife Investment Management I PLC (the "Company') for the year ended 31 March 2023, which comprise of the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and notes to the financial statements, including the summary of significant accounting policies set out in Note 3. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union as applied in accordance with the provisions of the Companies Act 2014.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2023 and of its loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MANULIFE INVESTMENT MANAGEMENT I PLC (CONTINUED)

Opinions on other matters prescribed by the Companies Act 2014

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by sections 305 to 312 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 11, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: <u>http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf</u>.

This description forms part of our auditor's report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MANULIFE INVESTMENT MANAGEMENT I PLC (CONTINUED)

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Lisa Kealy

Notes to the financial statements

For the financial year ended 31 March 2023

1. General Information

Manulife Investment Management I PLC (the "Company") is an open-ended umbrella investment company with variable capital and segregated liability between its sub-funds (each a "Fund", collectively the "Funds") and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (the "Companies Act").

The Company is authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the European Communities UCITS Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (the "Central Bank UCITS Regulations"). The Company was incorporated on 6 February 2015 under registration number 557040. The registered address of the Company is 5 Earlsfort Terrace, Dublin 2 D02 CK83, Ireland.

Manulife Investment Management (Ireland) Limited (the "Manager"), is a private company limited by shares and is incorporated in Ireland. The Manager has been authorised by the Central Bank of Ireland to act as a UCITS management company and to carry on the business of providing management and related administration services to UCITS collective investment schemes. The Manager serves as the Investment Manager and distributor for the Funds of the Company.

Macro Currency Fund terminated on 21 October 2022.

2. Basis of preparation

The Company's financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), the Companies Act and the Central Bank UCITS Regulations. The financial statements of the Company have been prepared on a going concern basis, with the exception of Macro Currency Fund, as the Company's management has assessed the assets and liabilities of the Company and is satisfied that the Company has the resources to continue its business for the foreseeable future. In addition, there are no material uncertainties that Company's management are not aware of that may impact upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis. The financial statements of Macro Currency Fund have been prepared on a non-going concern basis following termination.

In preparation of financial statements in conformity with IFRS the Company is required to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. Critical accounting estimates are those which involve the most complex or subjective judgements or assessments. The areas of the business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

The financial statements have been prepared under the historical cost convention except for financial assets and financial liabilities at fair value through profit or loss. The financial statements of each Fund are presented in the currency that it is primarily exposed to (USD and EUR) with the total Company financial statements being presented in USD.

New standards effective as of 31 March 2023

There are no new standards, amendments or interpretations issued and effective for the financial year beginning 1 April 2022 that have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

New standards not effective and not early adopted as of 31 March 2023

There are no new standards, amendments or interpretations not effective and not early adopted for the financial year beginning 1 April 2022 that have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

3. Significant accounting policies

3.1 Financial assets and financial liabilities at fair value through profit or loss

(a) Classification

In accordance with IFRS 9, the Company classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- (a) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term, or
- (b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking, or
- (c) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

Financial assets

The Company classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets
- The contractual cash flow characteristics of the financial asset

3.1 Financial assets and financial liabilities at fair value through profit or loss (continued)

(a) Classification (continued)

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company includes in this category short-term non-financing receivables, accrued income and other receivables.

Financial assets measured at fair value through profit or loss (FVPL)

A financial asset is measured at fair value through profit or loss if:

(a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding, or

(b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell, or

(c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Company includes in this category equity investments, debt securities and derivative financial instruments.

Financial liabilities

Financial liabilities measured at fair value through profit or loss (FVPL)

A financial liability is measured at FVPL if it meets the definition of held for trading.

The Company includes in this category derivative financial instruments.

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss.

(b) Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on the trade date, the date on which the Company commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value, for additional disclosure regarding transaction cost see Note 3.10.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income within net income/(loss) on financial assets and liabilities at fair value through profit or loss and are calculated on a First In-First Out ("FIFO") basis.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership and a realised gain or loss is recognised. Realised gains and losses are presented in the Statement of Comprehensive Income as net income/(loss) on financial assets and liabilities at fair value through profit or loss. Realised gains and losses on investment transactions are calculated using the FIFO method. Realised gains and losses on investments transactions in debt instruments are calculated as the difference between sales proceeds and the FIFO cost of the instrument.

(c) Fair value estimation

(i) Investments

IFRS 13 provides a precise definition of fair value. If an asset or a liability measured at fair value has a bid price and an ask price, the standard requires valuation to be based on a price within the bid-ask spread that is most representative of fair value and allows the use of mid-price or other pricing conventions that are used by market participants as a practical expedient for fair value measurement.

3.1 Financial assets and financial liabilities at fair value through profit or loss (continued)

(c) Fair value estimation (continued)

(i) Investments (continued)

The Company's valuation techniques are employed by the Manager. These techniques include financial assets and liabilities listed or normally dealt in more than one regulated market shall be valued at the last traded price (or if no last traded price is available the latest bid price) on such regulated market. The value of any investment which is not listed or dealt in a regulated market shall be the probable realisable value estimated with care and in good faith by the Directors, or by the Manager. Equity securities, as well as exchange-traded instruments, held by the Funds are typically valued at as of the scheduled close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 P.M., Eastern Time. Debt obligations are valued based on the evaluated prices provided by an independent pricing vendor or from broker-dealers. Independent pricing vendors utilise matrix pricing which takes into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data, as well as broker supplied prices. Trading in foreign securities may be completed before the scheduled daily close of trading on the principal market. Significant events at the issuer or market level may affect the values of securities between the time when the valuation of the securities is generally determined and the close of the principal market. The Fund uses fair value adjustment factors provided by an independent price needs of the principal market.

The value of exchange traded FDIs shall normally be based on the settlement price, as determined by the market in question, as at the Valuation Point. Where it is not the practice for the relevant market to quote a settlement price or such settlement price is not available for any reason as at the Valuation Point, such value shall be the probable realisable value estimated with care and in good faith by a competent person, firm or association (including the Manager) appointed by the Directors and approved for the purpose by the Depositary.

The value of OTC FDIs which are dealt on a regulated market shall be calculated by reference to freely available market prices at which an OTC derivative of the same size, currency and maturity could be affected at the Valuation Point. Where an alternative valuation is used (i.e. a valuation that is provided by a competent person, firm of association, including the Manager appointed by the Directors and approved for that purpose by the Depositary) the valuation principles employed must follow best international practice established by bodies such as International Organisation of Securities Commissions ("IOSCO") and Alternative Investment Management Association ("AIMA").

Options listed on an exchange are valued at the mid-price of the last quoted bid and ask prices from the exchange where the option trades. Swaps and unlisted options are valued using evaluated prices obtained from an independent pricing vendor. Futures contracts whose settlement prices are determined as of the close of the NYSE are typically valued based on the settlement price while other futures contracts are typically valued at the last traded price on the exchange on which they trade. Foreign equity index futures that trade in the electronic trading market subsequent to the close of regular trading may be valued at the last traded price in the electronic trading market as of the close of the NYSE. Forward foreign currency contracts are valued at the prevailing forward rates which are based on foreign currency exchange spot rates and forward points supplied by an independent pricing vendor.

(ii) Futures contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. The fair value of futures contracts is based upon their current quoted daily settlement prices on the relevant exchange as of the Statement of Financial Position date. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised. For each relevant Fund, gains or losses on open futures contracts are shown in the Schedule of Investments and as appropriate, on the Statement of Financial Position as financial assets or liabilities at fair value through profit or loss.

(iii) Options Contracts

Each Fund may purchase and sell (write) call and put options on securities, securities indices and foreign currencies traded on a national securities exchange or in an OTC market.

When a Fund writes a call or a put option, a premium is received by the Fund. The premium is subsequently marked-to-market to reflect the fair value of the option written, which is reported within financial assets or liabilities at fair value through profit or loss on the Statement of Financial Position for each relevant Fund. The difference between the premium amount and the fair value reported on the Statement of Financial Position gives rise to an unrealised gain/(loss).

When a Fund purchases a call or a put option, a premium is paid by the Fund. The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is included in determining initial fair value of the securities or foreign currency purchased. Premiums paid on the purchase of options which expire unexercised are treated as realised losses. The option is subsequently marked to market to reflect the fair value of the option purchased, which is reported within financial assets at fair value through profit or loss on the Statement of Financial Position for each relevant Fund.

3.1 Financial assets and financial liabilities at fair value through profit or loss (continued)

(c) Fair value estimation (continued)

(iii) Options Contracts (continued)

If an option which a Fund has written either expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, a Fund realises a gain (or loss, if the cost of a closing purchase transaction exceeds the premium received when the option was sold) without regard to any unrealised gain or loss on the underlying security, and the liability related to such option is extinguished. If a call option which a Fund has written is exercised, a Fund realises a capital gain or loss from the sale of the underlying security, and the premium originally received. When a put option which a Fund has written is exercised, the amount of the premium originally received will reduce the cost of the security which a Fund purchases upon exercise of the option.

(iv) Forward foreign currency exchange contracts

A forward foreign currency exchange contract represents an obligation to purchase or sell a specific currency at a future date and at a price set at the time of the contract. The values of forward foreign currency exchange contracts are adjusted daily based on the applicable exchange rate of the underlying currency. Changes in the value of open contracts are recorded within net income/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. When the forward contract is closed, the Funds record a realised gain/(loss) in the Statement of Comprehensive Income between the value at the time the contract was opened and the value at the time it was closed. Losses from these transactions may arise from unfavourable changes in currency values or if the counterparties do not perform under a contract's terms. Forward foreign currency exchange contracts may be used to hedge the risk to the portfolio or, more frequently, to a hedged share class, to exchange price movements. Forward foreign currency exchange contracts may also be used to increase a fund's exposure to currencies that the Manager believes may rise in value relative to the base currency of the relevant Fund or to shift a fund's exposure to currency fluctuations from one country to another by, generally, locking in a specified exchange rate for a period of time.

3.2 Foreign currency

(a) Functional and presentation currency

Items included in the financial statements of the Company are measured in the currency of the primary economic environment in which the Funds operate (the "functional currency"). The financial statements of the Company are presented in U.S. Dollar ("USD"), whereas the financial statements of the Funds are USD and Euro ("EUR"), which are the functional and presentation currency of the Funds, as the investors are primarily in USD and EUR and the markets where the Funds are operating are primarily USD and EUR. The liquidity of the Funds is managed on a day to day basis in USD and EUR in order to handle the issue, acquisition and resale of the Funds' redeemable shares.

(b) Foreign currency translation

The aggregated financial statements of the Company are prepared in the presentation currency of the Company, U.S. Dollar. Amounts of the individual Funds in other currencies are translated for the purpose of the aggregation as follows:

For the purposes of producing the combined total in the Statement of Financial Position, the Statement of Financial Position of each of the Funds are translated to USD using the exchange rates as of 31 March 2023.

For the purpose of producing the combined total in the Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares from the accounts of the individual Funds, average exchange rates are used. A translation adjustment arises in the combined totals due to this methodology. This adjustment does not have any impact on the NAV of any individual Fund. For the financial year ended 31 March 2023, this adjustment amounted to USD(3,387,159) (31 March 2022: USD(3,231,942)).

For the purpose of producing the combined total in the Statement of Cash Flows, the opening exchange rate is used to convert the Statement of Financial Position balances at 31 March 2022, the average exchange rate is used to convert the Statement of Comprehensive Income amounts for the financial year ended 31 March 2023 and the closing exchange rate is used to convert the Statement of Financial Position balances at 31 March 2023. A translation adjustment arises in the combined total due to this methodology. This adjustment does not have any impact on the cash flows of any individual Fund. For the financial year ended 31 March 2023, this adjustment amounted to USD(418,285) (31 March 2022: USD(406,269)).

(c) Transactions and balances

Transactions in currencies other than USD are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of period end exchange rates of monetary items and nonmonetary assets and liabilities that are denominated in foreign currencies are recognised in the Statement of Comprehensive Income in the period in which they arise. Net foreign exchange gains/(losses) on financial assets and liabilities is included in the Statement of Comprehensive Income within net income on financial assets and liabilities at fair value through profit or loss, as appropriate.

3.3 Revenue recognition

Dividend income is recognised when the Fund's right to receive the payment has been established, normally being the ex-dividend date. Interest income on debt securities at fair value through profit or loss is recognised in the Statement of Comprehensive Income as it accrues. Income is accounted for gross of any non reclaimable/irrecoverable withholding taxes and net of any tax credits. The withholding tax is shown separately in the Statement of Comprehensive Income.

3.4 Cash and cash equivalents

Cash and cash equivalents include cash in hand and other short-term investments in an active market with original maturities of three months or less. As of 31 March 2023 and 31 March 2022 cash and cash equivalents are held with State Street Bank and Trust Company ("State Street"). Cash held at 31 March 2023 and 31 March 2022 and denominated in currencies other than USD is converted to USD using the respective exchange rates, as disclosed in Note 4 to the financial statements.

3.5 Other financial liabilities

The Company may only borrow on a temporary basis for the account of the Funds and the aggregate amount of such borrowings may not exceed 10% of the NAV of a fund. In accordance with the provisions of the UCITS Regulations, the Company may charge the assets of the Fund as security for borrowings of the Fund.

3.6 Expenses

Expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

3.7 Cash at broker

Cash at broker is margin cash and cash collateral which is held by or due to brokers for open FDIs and OTC FDIs. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and reported separately from the unrestricted cash on each Funds' Statement of Financial Position.

A Fund's assets may be deposited by or received by the Fund for collateral purposes with counterparties in respect of OTC FDIs held on the Fund. Such assets would remain in the ownership of the relevant Fund and would be recorded as an asset on the Statement of Financial Position.

Any cash received as collateral would be recorded as an asset on the Statement of Financial Position and valued at its fair value. A related liability to repay the collateral is recorded as a liability on the Statement of Financial Position and is also valued at its fair value in line with the requirement of IAS 39 "Financial instruments: Recognition and measurement".

Investments pledged by the Funds as collateral are recognised at fair value in the relevant Schedule of Investments and such investments are referenced accordingly at the base of the Schedule of Investments. Securities received by the Funds as collateral from counterparties do not form part of the NAV of the Funds and are disclosed at the end of the relevant Schedule of Investments.

3.8 Receivable for investments sold & payable for investments purchased

Receivable for investments sold and payable for investments purchased represent amounts receivable and payable respectively, for transactions contracted for but not yet delivered at the end of the financial year. These amounts are recognised initially at fair value and subsequently at amortised cost.

3.9 Securities Lending

The Company may employ techniques and instruments relating to transferable securities for efficient portfolio management purposes including securities lending arrangements.

The Company did not enter into any such arrangements during the financial year ended 31 March 2023 or 31 March 2022.

3.10 Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on purchases and sales of equities, futures contracts, forward foreign currency exchange contracts and options are included in net income on financial assets and liabilities at fair value through profit or loss, as appropriate, in the Statement of Comprehensive Income for each relevant Fund. These include identifiable brokerage charges, commissions, transaction related taxes and other market charges.

Custody transactions costs are included in depositary fees. These costs are separately identifiable transaction costs and the total costs incurred by each Fund during the financial year are disclosed in Note 8, these include transaction costs paid to the Depositary.

3.11 Redeemable participating shares

In accordance with the requirements of the Prospectus, each Fund issues redeemable participating shares, which are redeemable at the holder's option and are classified as financial liabilities in accordance with IAS 32. Redeemable participating shares can be put back into the Fund at any time for cash equal to a proportionate share of the Fund's NAV. Redeemable participating shares are carried at the redemption amount that is payable at the financial year end date if the holder exercises the right to put the share back into the Fund.

Redeemable participating shares are issued and redeemed at the holder's option based on the relevant Fund's NAV per share at the time of issue or redemption.

The relevant Fund's NAV per share is calculated by dividing the net assets attributable to the holders of redeemable participating shares by the total number of outstanding redeemable participating shares.

3.12 Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

4. Exchange rates

The rates of exchange (4:00 p.m. eastern time) to USD as of 31 March 2023 and 31 March 2022 were as follows:

Currency	31 March 2023	31 March 2022
Australian Dollar (''AUD'')	1.4960	1.3364
Brazilian Real (''BRL'')	5.0685	4.7611
British Pound Sterling ("GBP")	0.8106	0.7612
Canadian Dollar (''CAD'')	1.3515	1.2502
Chinese Yuan Renminbi ("CNY")	6.8719	6.3431
Colombian Peso ("COP")	4,657.0000	3,773.0050
Danish Krone ("DKK")	6.8694	6.7241
Euro ("EUR")	0.9221	0.9040
Hong Kong Dollar (''HKD'')	7.8499	7.8333
Indian Rupee (''INR'')	82.1825	75.7750
Indonesian Rupiah (''IDR'')	14,994.5000	14,362.5000
Japanese Yen (''JPY'')	132.7750	121.7400
Malaysian Ringgit (''MYR'')	4.4125	4.2048
Mexican Peso (''MXN'')	18.0200	19.8900
New Taiwan Dollar ("TWD")	30.4475	28.6515
New Zealand Dollar ("NZD")	1.5992	1.4429
Norwegian Krone ("NOK")	10.4698	8.8039
Philippine Peso ("PHP")	54.3650	51.7450
Singapore Dollar (''SGD'')	1.3308	1.3554
South Korean Won (''KRW'')	1,301.8500	1,212.0500
Swedish Krona ("SEK")	10.3790	9.4024
Swiss Franc ("CHF")	0.9150	0.9241

The rates of exchange (4:00 p.m. eastern time) to EUR as of 31 March 2023 and 31 March 2022 were as follows:

Currency	31 March 2023	31 March 2022
Australian Dollar (''AUD'')	1.6224	1.4784
British Pound Sterling (''GBP'')	0.8791	0.8421
Canadian Dollar (''CAD'')	1.4657	1.3830
Japanese Yen (''JPY'')	143.9945	134.6748
New Zealand Dollar ("NZD")	1.7344	1.5962
Norwegian Krone (''NOK'')	11.3545	9.7393
Singapore Dollar ("SGD")	1.4433	1.4994
Swedish Krona (''SEK'')	11.2560	10.4014
Swiss Franc ("CHF")	0.9923	1.0222
U.S. Dollar (''USD'')	1.0845	1.1062

The average exchange rate used to convert EUR to USD in the Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Statement of Cash Flows for the financial year ended 31 March 2023 was 0.96120 (31 March 2022: 0.86101).

5. Share capital

Authorised

The authorised share capital of the Company is 500,000,000,000 redeemable Shares of no par value and 300,002 redeemable Non-Participating Shares of no par value issued at EUR1 each. Non-Participating Shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot Shares in the capital of the Company on such terms and in such manner as they may think fit. The Company has issued Non-Participating Shares to the value of EUR300,002. The Company reserves the right to redeem some or all of the Non-Participating Shares provided that the Company at all times has a minimum issued share capital of at least EUR300,000.

Redeemable shares and net assets attributable to holders of redeemable shares

The redeemable participating share capital is at all times equal to the NAV of the Fund. Redeemable participating shares are redeemable at the Shareholders' option and are classified as financial liabilities.

Please refer to Note 9 for a reconciliation between the NAV per the financial statements and to published dealing NAV.

Please refer to the Prospectus for each Fund's initial minimum subscription amount for shares.

The following table shows the movement in the number of redeemable participating shares for the financial year ended 31 March 2023:

Payments for shares redeemed	_	_	_	EUR (2,484,448)

* The Fund terminated on 21 October 2022.

** On 8 December 2022, the Board approved the use of the dilution levy as outlined in the Fund's Prospectus. The redemption was USD23.6 million and the transactions charges paid by the redeeming shareholder amounted to USD16,106, which were allocated pro-rata across the remaining share classes. This redemption resulted in the Share Class termination on 12 December 2022.

*** These Share Classes terminated on 21 October 2022.

**** This Share Class terminated on 27 September 2022.

6. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended, (the "Taxes Consolidation Act"). On that basis, it is generally not chargeable to Irish tax on its income and gains so long as the Company is resident for tax purposes in Ireland. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, are held by the Company; and
- certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investments income/gains are received and such taxes may not be recoverable by the Company and its Shareholders. Withholding tax and reclaims incurred on dividends are recorded on ex-date. Dividends receivable are shown net of withholding taxes payable, if any, in the Statement of Financial Position.

The Company may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the Company invests. The foreign capital gains tax expense, if any, is recorded on an accrual basis and is included in Capital gains taxes on the Statement of Comprehensive Income. The amount of foreign tax owed, if any, is included in Capital gains tax payable on the Statement of Financial Position.

7. Efficient portfolio management and currency hedging

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the Central Bank, use techniques and instruments for hedging purposes (to protect the Fund's unrealised gains by hedging against possible adverse fluctuations in the securities markets or changes in interest rates or currency exchange rates that may reduce the market value of the Fund's investment portfolio) or for the purposes of efficient portfolio management (including but not limited to forward foreign currency exchange contracts, futures contracts, options, put and call options on securities, indices and currencies, stock index contracts and swap contracts). Hedging can occur at share class level also.

The Company may also use repurchase/reverse repurchase and securities lending agreements for the purposes of efficient portfolio management. References to a Fund entering into an FDI shall be construed as the Company entering into such FDI on behalf of a Fund, where appropriate. A Fund also may use an FDIs to seek to enhance returns, currency hedging, spreads or gains, or to efficiently invest excess cash or quickly gain market exposure. A Fund may engage in such transactions on an exchange or in the over-the-counter ("OTC") market.

The Company may engage in such techniques and instruments for the reduction of risk, cost or the generation of additional capital or income for each Fund with an appropriate level of risk, taking into account the risk profile of the Company and the relevant Fund as described in the Prospectus and the general provisions of the UCITS Regulations.

The use of techniques for efficient portfolio management is not expected to raise the risk profile of a Fund or result in higher volatility.

The Fund may only employ FDIs that have been specified in the risk management process that the Company has submitted to the Central Bank of Ireland. The global exposure of Strategic Income Opportunities Fund and Macro Currency Fund associated with the use of FDIs is measured using either the Value at Risk ("VaR") approach or the commitment approach in accordance with the requirements of the Central Bank of Ireland. All other Funds are calculated using the commitment approach.

During the financial years ended 31 March 2023 or 31 March 2022, the Funds did not engage in repurchase or reverse repurchase and securities lending agreements, for the purposes of efficient portfolio management. The Funds have entered into FDI contracts. Please refer to Schedule of Investments for details of FDIs held at financial year end.

8. Fees and expenses

Management fees and expense limitation

The Manager is entitled to receive from the Company a fee in relation to each Fund or Class. The Management fee is calculated and accrued at each valuation point and payable monthly in arrears. The Manager may be paid different fees for investment management in respect of individual classes which may be higher or lower than the fees applicable to other Funds or Classes.

To the extent that the Manager waives its fee or reimburses the relevant Fund's operating expenses under the expense limitation, the relevant Fund's overall expense ratio will be lower than it would have been without the expense limitation. An expense limitation is a reduction of the Fund's Management fee or, if necessary, payment to the Fund, in an amount equal to the amount by which the operating expenses of the Fund exceed the percentage as set forth in the table below. This reduction in operating expenses may increase a Fund's investment return and such returns may not be achieved without the benefit of the expense limitation.

The Manager may from time to time, at its sole discretion out of its own resources, decide to rebate to shareholders part or all of its Management fee. Any such rebates may be applied by issuing additional shares to shareholders or in cash. The Manager is also entitled to be repaid out of the assets of the Funds for all of its reasonable out-of-pocket expenses incurred on behalf of the Funds.

See Note 12 for details of fees earned during the financial year.

Details of current fee rates in operation by Fund, for each share class are outlined below:

U.S. Large Cap Equity Fund

Class	Management Fee Rate	Expense Limitation (excluding any Management Fee paid)

* This Share Class terminated on 12 December 2022.

** The Fund terminated on 21 October 2022.

*** These Share Classes terminated on 21 October 2022.

**** This Share Class terminated on 27 September 2022.

The Manager may from time to time at its sole discretion, use part of its Management fee to remunerate the distributor and certain other financial intermediaries and may pay reimbursements or rebates to certain institutional Shareholders.

Performance fee

In respect of the Macro Currency Fund the Manager is also entitled to receive a Performance fee equal to a specified percentage of any appreciation in value in excess of the hurdle rate (the Benchmark or Index as applicable to the relevant share class. The Performance fee rate that applies is set out in the table above). The hurdle rate for each share class is shown in the table below.

Currency of Share Class	Hurdle Rate
USD	ICE BofA 0-3 month T-Bill
EUR	EUR 3 month EURIBOR
GBP	GBP 3 month UK T-Bill
CHF	SARON
SEK	SEK 3 month SEK T-Bill

The Performance fee will be calculated and shall accrue at each Valuation Point and the accrual will be reflected in the NAV per share of the relevant class. The Performance fee will be payable annually in arrears (the "Calculation Period"), or upon repurchase or redemption, if earlier.

The Initial Offer Price multiplied by the number of shares issued is taken as the starting point for the calculations.

The first calculation period will be the period commencing on the Business Day which immediately follows the closing of the Initial Offer Period in respect of the relevant Class and ending on the next calendar quarter end.

Any underperformance by the Fund relative to the Hurdle Rate shall be clawed back before any subsequent Performance fee becomes payable. The Performance fee with respect to any redemptions or repurchase of Shares during the Calculation Period will crystallise and become payable within 14 days of the redemption date. The amount of the Performance fee was calculated by the Administrator and the calculation of the Performance fee was verified by the Depositary.

The Performance fee is based on net realised and net unrealised gains and losses as at the end of each Calculation Period and as a result, it may be paid on unrealised gains which may subsequently never be realised. The Performance fee is payable on a Class where the relevant Hurdle Rate is exceeded, although this may be due to market movements impacting on retained holdings in the Fund rather than specific actions undertaken by the Manager. It is possible for the Hurdle Rate to be negative; in which case a Performance fee would be payable with respect to a Class provided any decline in the NAV of the relevant class of shares over the Calculation Period was less than that of the Hurdle Rate.

The Fund does not apply Performance fee equalisation and this may result in unequal effects being experienced between different Shareholders as to the effective Performance fee rate that they bear on the performance of their investment in the Fund through the period of their investment.

The Performance fee charged for the financial year amounted to EUR Nil (31 March 2022: EUR55,133), of which EUR Nil (31 March 2022: EUR Nil), was payable at financial year end.

Distributor fee

The Company has appointed the Distributor pursuant to the Distribution Agreement. The Distributor will be responsible for the distribution and marketing of the Shares of the Company. The Distributor may also appoint Distribution Agents. The fees and expenses of any Distribution Agents will be discharged by the Distributor out of its fee. Where the Distributor's expenses are attributable to the Company as a whole, they will be borne on a pro rata basis by each Fund. There were no Distributor fees for the financial year ended 31 March 2023 or 31 March 2022.

Administrator and Depositary fees

Under the Administration and Depositary Agreements, the Administrator and the Depositary are entitled to a fee at an annual rate which together shall not exceed 0.50% of the average NAV of a Fund (plus any applicable taxes). The limit is calculated after including reimbursement of fees by the Manager.

The Depositary shall also be entitled to receive out of the assets of the Fund all agreed sub-custodian fees, transaction charges (which will be charged at normal commercial rates) together with reasonable out-of-pocket expenses incurred by the Depositary in the performance of its duties under the Depositary Agreement. Such custody fees shall accrue daily and be calculated and payable monthly in arrears. Depositary fees charged for the financial year amounted to USD272,196 (31 March 2022: USD407,545), of which USD145,836 was payable at financial year end (31 March 2022: USD108,992).

The Administrator is also entitled to charge to the Fund all agreed fees and transaction charges, at normal commercial rates, together with reasonable out-of-pocket expenses (plus any applicable taxes, including fee for provision of financial reporting, investor level tax reporting, KIID reporting and risk management), it incurs on behalf of the Fund in the performance of its duties under the Administration Agreement, which shall accrue and be calculated on each Dealing Day and payable monthly in arrears. Administration fees charged for the financial year amounted to USD319,492 (31 March 2022: USD338,712), of which USD176,247 was payable at financial year end (31 March 2022: USD164,356).

Directors' fees

The Prospectus provides that the Directors shall be entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. However, Directors affiliated with Manulife Investment Management are not entitled to a fee and did not earn any additional income for taking on this role. The aggregate amount of Directors remuneration in any one year shall not exceed EUR150,000 without the approval of the Directors. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties. Directors' fees charged for the financial year amounted to USD84,259 (31 March 2022: USD103,533), of which USD18,123 was payable at financial year end (31 March 2022: USD24,358).

Auditors' remuneration

Statutory audit fees (including expenses) charged for the financial year were USD48,251 (31 March 2022: USD49,651) and at the financial year end USD38,135 was payable (31 March 2022: USD48,535).

	Financial year ended 31 March 2023 USD*	Financial year ended 31 March 2022 USD*
Statutory audit fee	48,251	49,651
Other assurance services		_
Other non-audit services		_
Total auditors' remuneration	48,251	49,651

* Amounts shown are exclusive of Value Added Tax.

Transaction fees

Transaction fees are incremental costs that are directly attributable to the acquisition, issue or disposal of the financial asset or financial liability. Transaction fees on the purchases and sales of equities and collective investment schemes are detailed below. Due to operational challenges in extracting the transaction costs on the purchase and sale of forward foreign exchange currency contracts and bonds, transaction costs on these instruments cannot be separately identified. They are included in the purchase and sale price of the investment, and therefore not disclosed separately in this note. Custody transaction fees are included in Depositary fee in the Statement of Comprehensive Income. Purchases and sales transaction fees are included in net income on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

	Custody Transaction Fees	Purchases and Sales Transaction Fees
Financial year ended 31 March 2023	USD*	USD
U.S. Large Cap Equity Fund	3,067	28,093
Strategic Income Opportunities Fund	29,673	1,808
Global Quality Growth (Ex-U.S.) Fund	86,659	223,801
Macro Currency Fund**	62,242	_
Total	181,641	253,702

Transaction fees (continued)

Financial year ended 31 March 2022	Custody Transaction Fees USD*	Purchases and Sales Transaction Fees USD
U.S. Large Cap Equity Fund	1,892	17,921
Strategic Income Opportunities Fund	23,769	3,260
Global Quality Growth (Ex-U.S.) Fund	88,508	309,965
Macro Currency Fund	110,532	_
Total	224,701	331,146

* Transaction costs are included as part of Depositary fees in operating expenses in the Statement of Comprehensive Income for each Fund. ** The Fund terminated on 21 October 2022.

9. Reconciliation to dealing NAV

The NAV per redeemable participating share at which Shareholders may subscribe to or redeem from the Fund, differs from the NAV per the financial statements. The difference is due to the treatment of prepaid organisational expenses. In accordance with the Prospectus these organisational expenses are being amortised over the first five financial years. However, for the purposes of these annual financial statements, organisational expenses have been expensed as incurred in line with IFRS.

For the financial year ended 31 March 2023, no table is disclosed as the Macro Currency Fund terminated on 21 October 2022.

For the financial year ended	31	March 2022
------------------------------	----	------------

For the financial year ended 31 March 2022	Macro Currency	
	Fund	
	EUR	
NAV per financial statements	51,415,530	
Remaining unamortised organisation costs included in the dealing NAV	19,109	
NAV as calculated in accordance with the Prospectus (dealing NAV)	51,434,639	

For all other Funds, there were no differences between NAV per financial statements and NAV as calculated in accordance with the Prospectus (dealing NAV) for the financial years ended 31 March 2023 and 31 March 2022.

10. Financial instruments and associated risks

Role of the Manager

Manulife Investment Management (Ireland) Limited, (the "Manager") acts as manager to the Company and each Fund has the power to delegate one or more of its functions subject to the overall supervision and control of the Company.

The Manager will monitor each Sub-Investment Manager's management of the Company's investment operations in accordance with the investment objectives and related investment policies, as set forth in the Prospectus and any Supplement issued by the Company and review and report to the Directors on the performance of such Sub-Investment Manager.

The Manager is a private company limited by shares and is incorporated in Ireland. The Manager has been authorised by the Central Bank of Ireland to act as a UCITS management company and to carry on the business of providing management and related administration services to UCITS collective investment schemes.

The Manager has delegated some of its responsibilities as detailed in the relevant Sub-Investment Management agreement. The Sub-Investment Managers of the Funds are detailed in the table below:

Fund Name	Sub-Investment Manager
U.S. Large Cap Equity Fund	Manulife Investment Management (US) LLC
Strategic Income Opportunities Fund	Manulife Investment Management (US) LLC
Global Quality Growth (Ex-U.S.) Fund	Wellington Management Company LLP
Macro Currency Fund*	First Quadrant, L.P.

* The Fund terminated on 21 October 2022.

Risk mitigation & management

The Manager operates a risk management process on behalf of the Funds in relation to the use of FDIs which allows it to accurately measure, monitor and manage the various risks associated with FDIs and other investments, and which is intended to ensure that the Funds' investments including FDI exposure remains within the limits. This risk management process also takes into account any exposure created through FDIs embedded in investments held by the Funds.

Maara Curranau

Global Exposure

The global exposure of the assets held within each Fund is monitored on a daily basis. In accordance with the regulatory requirements, global exposure can be calculated in two ways, either;

- (i) Value at Risk ("VaR") will be employed where the relevant Funds have been classified as using, to a large extent and in a systematic way, FDIs as part of complex investment strategies, or where strategies using FDIs may cause risks such as volatility risk, gamma risk and basis risk such that these would not be adequately reflected by the commitment approach.
- (ii) Otherwise, the Manager will apply the Commitment Approach for the purposes of calculating both global exposure and leverage in accordance with the Regulations.

The Manager monitors the assets of each Fund to ensure that global exposure and leverage, at all times, remains within the limits set by the Central Bank. The commitment approach is used to calculate global exposure on all Funds which use FDIs, with the exception of Strategic Income Opportunities Fund and Macro Currency Fund as they use the VaR method. The table below provides the VaR analysis for the relevant Funds at 31 March 2023 and 31 March 2022. Macro Currency Fund terminated on 21 October 2022 and the VaR details provided below are in respect of financial year ended 31 March 2022.

VaR represents an estimate of the potential loss which might arise from unfavourable market movements if the current positions were to be held unchanged for 1 month, measured at a confidence level of 99%. VaR utilisation measures the Funds' VaR relative to the Funds' VaR limit. The below table details the approach for each Fund, the minimum, maximum and average daily VaR utilisation (relative VAR) that occurred during the financial years ending 31 March 2023 and 31 March 2022 expressed as a percentage of the VaR limit and the VaR expressed as a percentage of the net asset value of the Fund at the financial year end.

Strategic Income Opportunities Fund	31 March 2023	31 March 2022
Lowest utilisation of the VaR limit	7.75%	7.33%
Highest utilisation of the VaR limit	20.72%	28.80%
Average utilisation of the VaR limit	14.49%	15.40%
Absolute VaR at financial year end	3.81%	1.58%
Absolute VaR limit	20.00%	20.00%

Macro Currency Fund*	31 March 2023	31 March 2022
Lowest utilisation of the VaR limit	N/A	17.08%
Highest utilisation of the VaR limit	N/A	55.51%
Average utilisation of the VaR limit	N/A	35.61%
Absolute VaR at financial year end	N/A	4.97%
Absolute VaR limit	N/A	20.00%

* The Fund terminated on 21 October 2022.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is divided into three distinct sections; market price risk, interest rate risk and currency risk.

Market price risk

Market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. The Manager considers the asset allocation of the portfolio in order to manage the risk associated with particular countries or industry sectors whilst continuing to follow the Funds' investment objectives.

A 5% increase in market value of investments for those stocks held by the Funds at 31 March 2023 and 31 March 2022, with all other variables remaining constant, would increase the net assets attributable to holders of redeemable participating shares as shown in the table below. A 5% decrease in market value of investments would have an equal but opposite effect.

	31 March 2023	31 March 2022
Fund	USD	USD
U.S. Large Cap Equity Fund	2,605,457	6,080,154
Global Quality Growth (Ex-U.S.) Fund	5,390,661	6,180,824

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. Changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general have the opposite effect. Other assets and liabilities bear no interest rate risk. The Manager monitors positions on a daily basis.

The tables below summarise each relevant Fund's exposure to interest rate risks. It includes each relevant Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates. The Funds not mentioned below are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

The table below also contains interest rate sensitivity analysis. This analysis is a relative estimate of risk and is not intended to be a precise number. The calculations are based on historical data. Future price movements and correlations between securities could vary significantly from those experienced in the past.

31 March 2023

		Up to			Non-Interest		Sensitivity
Fund	Currency	1 Year	1 to 5 Years	Over 5 Years	Bearing	Net Assets	Analysis
Strategic Income Opportunities Fund	USD	1,864,710	10,462,031	18,328,017	648,749	31,303,507	*
Macro Currency Fund**	EUR	36,240	_	_	(36,240)	_	*

31 March 2022

		Up to			Non-Interest		Sensitivity
Fund	Currency	1 Year	1 to 5 Years	Over 5 Years	Bearing	Net Assets	Analysis
Strategic Income Opportunities Fund	USD	2,054,990	10,556,522	18,887,891	2,075,324	33,574,727	*
Macro Currency Fund	EUR	54,032,639	_	_	(2,617,109)	51,415,530	*

* Sensitivity analysis has not been included for the Funds that use Absolute VaR as part of its investment management process.

** The Fund terminated on 21 October 2022.

Foreign currency risk

Assets of a Fund may be denominated in a currency other than the base currency of the Fund and changes in the exchange rate between the base currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the base currency. For those Funds whose global exposure is monitored using the VaR method, the Manager will monitor the currency risk of the Fund through this method. For the other Funds, the Manager or Sub-Manager monitors the currency exposure on a regular basis. The Manager may (but is not obliged to) seek to mitigate this exchange rate risk by using FDI. No assurance, however, can be given that such mitigation will be successful.

Accordingly, the value of the shares may be affected by any currency movement between the currency of the financial assets and financial liabilities and the base currency. The base currency of the Company and each of the Funds is USD, with the exception of Macro Currency Fund, which is EUR. The active share classes are denominated USD, CHF, EUR and GBP.

The following tables set out each Fund's material exposure to direct foreign currency risk as of 31 March 2023 and 31 March 2022. The Funds not mentioned below held direct assets in foreign currencies which do not exceed 5% of the total monetary assets of each Fund. The tables below also show the currency sensitivity analysis for these Funds. Sensitivity analysis has not been included for the Funds that use Absolute VaR as part of its investment management process. The sensitivity analysis below illustrates the impact of a 5% exchange rate increase or decrease between the USD and the net financial assets denominated in foreign currency relevant to the Fund. This analysis is based on the assumption that all other variables remain constant. The impact on the Company is the change in the NAV of the Fund in terms of USD (the functional currency of the Fund). The sensitivity analysis details the direct effect of a change in exchange rates on net financial assets only and does not include the indirect effects which may occur on securities in the Fund from exchange rate movements. It should be noted that some Funds have material indirect exposure to foreign currency risk which is not quantified in the tables below.

* At 31 March 2022, had the exchange rate increased or decreased by 5% with all other variables held constant, the increase or decrease respectively in the value of the Funds' assets and liabilities, denominated in currencies other than the base currency of the Fund.

Financial Derivative Instrument ("FDI") risk

The use of FDIs may result in greater returns but may entail greater risk for an investment. FDIs may be used as a means of gaining indirect exposure to a specific asset, rate or index and/or as part of a strategy designed to reduce exposure to other risks, such as interest rate or currency risk. The use of FDIs involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other investments. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of the FDIs may not correlate perfectly with the underlying asset, rate or index.

Investing in an FDI could cause the Fund to lose more than the principal amount invested. Also, suitable FDI transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in these transactions to reduce exposure to other risks when that could be beneficial. The prices of FDI instruments are highly volatile. Price movements of FDI contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, national and international political and economic events and changes in local laws and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly markets in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations.

The use of FDIs also involves certain special risks, including (i) dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates; (ii) imperfect correlation between the hedging instruments and the securities or market sectors being hedged; (iii) the fact that skills needed to use these instruments are different from those needed to select the Fund's securities; and (iv) the possible absence of a liquid market for any particular instrument at any particular time.

There is less government regulation and supervision of transactions in the OTC markets (in which certain currencies, spot and option contracts, certain options on currencies and swaps are generally traded) than of transactions entered into on recognised exchanges. OTC FDIs lack transparency as they are privately negotiated contracts and any information concerning them is usually only available to the contracting parties. While measures have been introduced under Regulation (EU) No 648/2012 of the European Parliament and of the Council on OTC FDIs, central counterparties and trade repositories ("EMIR") that aim to mitigate risks involved in investing in OTC FDIs and improve transparency, these types of investments continue to present challenges in clearly understanding the nature and level of risks involved. In addition, many of the protections afforded to participants on some recognised exchanges, such as the performance guarantee of an exchange clearing house, might not be available in connection with OTC transactions.

Financial Derivative Instrument ("FDI") risk (continued)

The counterparty for an OTC FDI will be the specific firm involved in the transaction rather than a recognised exchange and accordingly the bankruptcy or default of a counterparty with which the Fund trades OTC FDIs could result in substantial losses to the Fund. In addition, a counterparty may fail to settle a transaction in accordance with its terms and conditions because the contract is not legally enforceable or because it does not accurately reflect the intention of the parties or because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. Risk exposure to a counterparty may be resolved by collateral held by Funds, details of which can be found on the Schedules of Investments. Regardless of the measures the Fund may implement to reduce counterparty credit risk, however, there can be no assurance that a counterparty will not default or that the Fund will not sustain losses on the transactions as a result. Counterparty exposure will be in accordance with the Fund's investment restrictions.

Please refer to Schedules of Investments for details of FDIs held at financial year end.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities. Not all securities or instruments invested in by the Funds will be listed or rated and consequently liquidity may be impaired. Moreover, the accumulation and disposal of holdings in some investments may be time consuming and may need to be conducted at unfavourable prices. The Funds may also encounter difficulties in disposing of assets at their fair price due to adverse market conditions leading to limited liquidity.

Certain investments and types of investments are subject to restrictions on resale, may trade in the OTC market or in limited volume, or may not have an active trading market. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. It may be difficult for a Fund to value illiquid securities accurately. Also, the Funds may not be able to dispose of illiquid securities or execute or close out FDI transactions readily at a favourable time or price or at prices approximating those at which the Fund currently values them. Illiquid securities also may entail registration expenses and other transaction costs that are higher than those for liquid securities.

The Company can manage liquidity risk through redemption limits, if necessary. If redemption requests received in respect of shares of a particular Fund on any dealing day would otherwise exceed 10% of the NAV or 10% of the shares of the relevant Fund on that dealing day, the Directors are entitled, at their absolute discretion, to refuse to redeem the number of shares exceeding 10% of the NAV or exceeding 10% of the shares of the relevant Fund on that dealing day, If they so refuse, the requests for redemption on such dealing day shall be reduced rateably and the shares to which each request relates which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all the shares to which the original request related have been redeemed. There were no such limits applied during the financial year.

As of 31 March 2023 and 31 March 2022, all of the Funds' liabilities, including net assets attributable to redeemable participating shareholders, were payable within three months.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment underlying a security the Fund holds.

There can be no assurance that issuers of the securities or other instruments in which a Fund invests will not be subject to credit difficulties leading to the loss of some or all of the sums invested in such securities or instruments or payments due on such securities or instruments (as well as any appreciation of sums invested in such securities).

All investments (excluding FDIs and loans), cash equivalents and collateral received by the Funds are held by the Depositary through its affiliate, State Street or through a sub-custodian within the State Street custodial network. All FDIs, collective investment schemes, term deposits, deposits margin or other similar investments/monies deposited by or entered into on behalf of the Company with a counterparty, options exchange, clearing broker or other parties are not held within the State Street custodial network.

The Fund has counterparty risk in relation to transactions it enters into with brokers, banks and other third parties if the counterparty was to fail to complete any transaction to which the Company is a party. The Manager conducts periodic reviews of the counterparties with whom it conducts transactions. The counterparties for the FDIs are listed in the Schedule of Investments. Risk exposure to a counterparty may be reduced by collateral held by Fund, details of which can be found on the Schedules of Investments.

Bankruptcy or insolvency of the Depositary or a State Street affiliate company may cause the Company's rights with respect to cash and securities held by State Street to be delayed or limited and the Company would be treated as a general creditor of that entity in respect of its cash balances. The long term credit rating of State Street as of 31 March 2023 was Aa2 (31 March 2022: Aa2) as rated by Moody's rating agency.

Credit risk (continued)

A portion of Strategic Income Opportunities Fund's investments in financial assets, have an investment grade as rated by Moody's rating agency, with the remaining investments in financial assets being Unrated assets ("Not Rated") and are those for which no ratings are available.

The following is the credit ratings of the counterparties to the derivative contracts held by the Funds, based on the Moody's rating agency:

* The Fund terminated on 21 October 2022.

Concentration of risk

Concentration of risk arises from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. Concentration indicates the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location.

The Company's risk concentration by geographical and/or sector distribution is shown on the Schedules of Investments.

Capital management

The capital of the Company is represented by the net assets attributable to holders of redeemable participating shares. The amount of net assets attributable to holders of redeemable shares can change significantly on a daily basis, as the Company is subject to daily subscriptions and redemptions at the discretion of the Shareholders. The Company's aim with respect to management of its capital is to safeguard its ability to continue as a going concern in order that each Fund may achieve its overall objective, and to maintain a strong capital base to support the development of each Fund's investment activities.

The Manager monitors capital on the basis of the value of net assets attributable to holders of redeemable participating shares.

Fair value measurement & hierarchy

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Certain inputs for the asset or liability are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgment by the Manager. The Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Changes in valuation techniques and related inputs may result in transfers into or out of an assigned level within the disclosure hierarchy, which is evaluated on a semi-annual basis.

Fair value measurement & hierarchy (continued)

The following table summarises the Funds' fair value hierarchy at 31 March 2023:

There were no transfers between levels during the financial year ended 31 March 2022.

There were no Level 3 security disclosures as of 31 March 2022.

Offsetting and amounts subject to master netting arrangements

Each Fund has entered into OTC FDIs and/or foreign exchange transactions, such as forward foreign currency exchange contracts, future contracts, swaps contracts and options contracts (collectively, the "Transactions") governed by a master agreement published by the International Swaps and Derivatives Association ("ISDA"). An ISDA Master Agreement, which the Company, on behalf of the Funds, separately negotiates with each of its counterparties, is a bilateral agreement that governs the Transactions and typically contains, among other things, collateral posting terms and termination and netting provisions that apply in the event of a default, such as the bankruptcy or insolvency of one of the parties to the agreement, and/or termination event (a "Close-Out Event"). These provisions typically permit a counterparty to: i) terminate some or all of the Transactions upon the occurrence of a Close-Out Event; and ii) determine a single net payment owed to or by it in respect of the terminated Transactions. At 31 March 2023 and 31 March 2022, gross unrealised gains and losses on OTC FDIs are presented in the Statement of Financial Position.

Cash collateral/margin required to be segregated by the Funds under the ISDA Master Agreements entered into by the Company is recognised as collateral and margin cash due from broker on the Statement of Financial Position. Counterparties to the Transactions as of 31 March 2023 are listed at the base of each Funds respective Schedule of Investments.

The following tables show the netting of gross unrealised gains and gross unrealised losses for the four relevant funds: U.S. Large Cap Equity Fund, Strategic Income Opportunities Fund, Global Quality Growth (Ex-U.S.) Fund and Macro Currency Fund as recognised on the Statement of Financial Position as of 31 March 2023 and 31 March 2022 along with the associated cash collateral/margin cash.

11. Soft Commissions

The relevant Sub-Investment Manager has a soft commission arrangement in place for the U.S. Large Cap Equity Fund, Strategic Income Opportunities Fund and Global Quality Growth (Ex-U.S.) Fund with a number of brokers. Each Sub-Investment Manager has entered into soft commissions arrangements with brokers in respect of research and advisory services. The brokers who are counterparties to the soft dollar arrangements undertake to provide best execution to the Company. The benefits provided under the soft commission arrangements will assist the Sub-Investment Manager in the provision of investment services to the Company. Any soft dollar commission arrangements are subject to the Manager's and the relevant Sub-Investment Manager's soft dollar commission policy.

Class W USD Distributing	32,050	0.0588
Class A USD Distributing	11,150	0.0437

There were no distributions paid out of capital during the financial year ended 31 March 2023 (31 March 2022: Nil).

15. Directed brokerage

There were no directed brokerage services utilised for the financial year ended 31 March 2023 (31 March 2022: Nil).

16. Off balance sheet transactions

There were no off balance sheet transactions for the Funds at 31 March 2023 (31 March 2022: Nil).

17. Commitments and contingencies

As of 31 March 2023, the Company did not have any significant commitments or contingent liabilities (31 March 2022: USD4,000).

18. Significant events during the financial year

As a result of political tensions and armed conflicts, including the Russian invasion of Ukraine commencing in February of 2022, the United States and the European Union, along with the regulatory bodies of a number of countries, have imposed economic sanctions on certain Russian corporate entities and individuals, and certain sectors of Russia's economy, which has resulted, and may continue to result, in devaluation of Russian currency, a downgrade in the country's credit rating, a decline in the value and liquidity of Russian securities, property or interests and supply chain disruption.

On 1 April 2022, the Central Bank of Ireland noted a revised Prospectus and Sub-fund Supplements for Macro Currency Fund.

On 8 August 2022, Bernard Letendre resigned as a Director of the Company.

On 17 September 2022, the Board approved the liquidation of the Macro Currency Fund. On 27 September 2022, Macro Currency Fund terminated Class E2p EUR Accumulating. The Fund terminated on 21 October 2022.

The below classes terminated on 21 October 2022:

Fund	Share Class
Macro Currency Fund	Class A USD (Hedged) Accumulating
	Class E3p USD (Hedged) Accumulating
	Class Ip USD (Hedged) Accumulating
	Class W USD (Hedged) Accumulating
	Class A CHF (Hedged) Accumulating
	Class Ip CHF (Hedged) Accumulating
	Class E3p GBP (Hedged) Accumulating
	Class Ip GBP (Hedged) Accumulating
	Class W GBP (Hedged) Accumulating
	Class A EUR Accumulating
	Class E3p EUR Accumulating
	Class Ip EUR Accumulating
	Class W EUR Accumulating
	Class A SEK (Hedged) Accumulating
	Class E2p SEK (Hedged) Accumulating

On 30 November 2022, the Central Bank of Ireland noted a revised Prospectus and Sub-fund Supplements of the Company.

On 12 December 2022, U.S. Large Cap Equity Fund terminated Class E1 USD Accumulating.

There were no other significant events affecting the Company that require amendment to or disclosure in these financial statements.

19. Significant events after the financial year

The following Shareholder activity took place after the financial year end:

Fund	Currency	Subscriptions	Redemptions
U.S. Large Cap Equity Fund	USD	157,812	159,044
Strategic Income Opportunities Fund	USD	3,230	1,993,620
Global Quality Growth (Ex-U.S.) Fund	USD	2,278,248	5,232,357

The following distributions were made after the financial year end:

Fund	Strategic Income Opportunities Fund			
Ex Date:	Amount	Distribution Per Share		
30 June 2023	USD			
Class A USD Distributing	14,536	0.0579		
Class W USD Distributing	39,304	0.0719		
Total	53,840			

There were no other significant events affecting the Company since 31 March 2023 that require amendment to or disclosure in these financial statements.

20. Approval of the financial statements

The financial statements were approved by the Board on 20 July 2023.

Remuneration policy (unaudited)

The following disclosures are made in accordance with Directive 2014/91/EU ("UCITS V").

The Management Company has developed and implemented remuneration policies and practices that are consistent with and promote a sound and effective risk management of the Company, do not encourage risk-taking which is inconsistent with the risk profiles/rules governing the Company, and do not impair compliance with the Management Company's duty to act in the best interest of the Company and ultimately its investors.

The Board of Directors of the Management Company is responsible for the design, implementation and regular review of the Remuneration Policy. In reviewing the Remuneration Policy, the Board of Directors of the Management Company will consider whether the remuneration framework operates as intended and ensure that the risk profile, long-term objectives and goals of the Company are adequately reflected. No material amendments were made to the Remuneration Policy and no irregularities were uncovered during the period under review. The current version of the Remuneration Policy is available on the Management Company's website.

Proportion of the total remuneration of the staff of the UCITS attributable to the Company as of 31 December 2022¹

The Company has been calculated on a pro-rata basis and on the basis of the assets under management managed by the Management Company.

	Number of beneficiaries	Total remuneration (USD) ²	Fixed remuneration in percentage of total	Variable remuneration in percentage of total
Total remuneration paid				
to Identified Staff ³ by the				
Management Company during				
the financial year	13	3,061,890	2.80%	0.93%

¹ 31 December is the financial year end of the Management Company.

² Total remuneration = sum of fixed remuneration and variable remuneration paid during the Management Company's financial year.

³ Identified Staff comprises = Executive Director & Head of Office, Designated Persons, Directors of the Management Company and members of the relevant oversight committees.

Total Expense Ratio ("TER") (unaudited)

The Manager is reporting Total Expense Ratio ("TER") for the preceding 12 month financial year ended 31 March 2023, in accordance with Guidelines as set out by Asset Management Association Switzerland "AMAS" (previously Swiss Funds & Asset Management Association).

This figure expresses the total commissions and costs currently charged to the corresponding sub-fund (expenses), which are calculated and shown as a percentage of the relevant Sub-Fund's assets. The incidental costs incurred by the collective investment scheme on the purchase and sale of investments are not included in the operating expenses. These are integral to the investments themselves and accrue to the realised capital gains/losses on the sale of the investments.
